

nitropro™

NOW, THE
sexiest
TREND IN COFFEE
CAN BE YOURS.

Made for slow-steeped, cold brew coffee that never touches heat, the **NEW NITROPRO™ DRAFT COFFEE DISPENSER** lets you become a destination for the most sought after trend in decades.

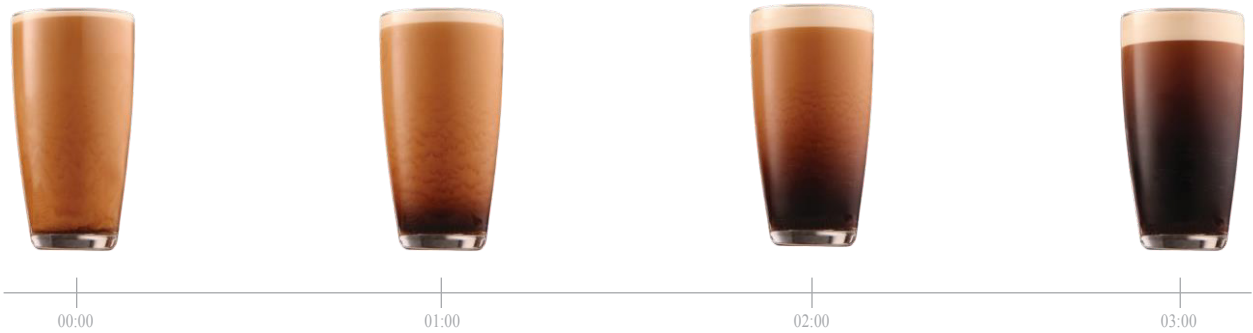

Cornelius®

THE COOLEST 3 MINUTES IN COFFEE HISTORY

Brought to you by NitroPro™

NEW NITRO-INFUSED COLD BREW COFFEE DISPENSER

The NitroPro™ livens up your cold brew like never before with a nitro-infused cascade that lasts for up to 3 whole minutes. Even after the nitrogen settles, just give the cup a swirl and watch the cascade start up again. It's pure entertainment today's coffee lovers are willing to pay a premium for.

COLD BREW COFFEE SALES HAVE GROWN 339% IN THE PAST 5 YEARS ALONE.¹

CONSISTENTLY DELIVERS A SMOOTH, CREAMY FINISH

Cup after luscious cold cup, NitroPro™ delivers the sweet, less bitter taste that cold brew coffee enthusiasts enjoy without adding cream or sugar.

EASY TO CLEAN AND MAINTAIN

NitroPro™ is equipped with a stainless steel body, quick-connect fittings, simple controls, removable parts and stainless kegs that are easy to clean and fill without pre-charging.

SIMPLE TO OPERATE

Start with your own cold brew coffee concentrate diluted with water, fill the keg, connect the tap and pour to create the ultimate draft coffee experience.

THE MOST RELIABLE, FULLY-CERTIFIED DISPENSER OF ITS KIND

With over 80 years of beverage dispenser expertise, Cornelius engineers its equipment to last. The entire NitroPro™ unit has received both NSF and UL approvals, so you can rest assured with no worries.

Perfect for cold brew, nitro-infused cold brew and dispensed water.
